ABOUT S İ N T A Ş

Founded in **1978**, Sintaş Boya initially operated in the construction and furniture coatings sector until 1992, when the company strategically expanded into the Automotive Refinish and Industrial Coatings industry. Today, Sintaş Boya manufactures its products in modern production facilities built on a total area of **31,000 m²**, including **21,000 m²** of indoor production space, and exports to more than **50 countries** worldwide.

SİNTAŞ is one of Türkiye's leading manufacturers of chemical products developed for automotive refinishing, protection, and industrial coating applications. With more than **45 years** of experience and a strong global business network, SİNTAŞ provides innovative and high-quality coating solutions for modern industries.

GLOBAL REACH

Exporting to more than 50 countries across 5 continents with a continuously expanding international network.

R&D & INNOVATION

In-house R&D center developing innovative formulas and sustainable coating technologies for tomorrow.

QUALITY ASSURANCE

High-quality raw materials and advanced production processes ensuring consistent performance and reliability.

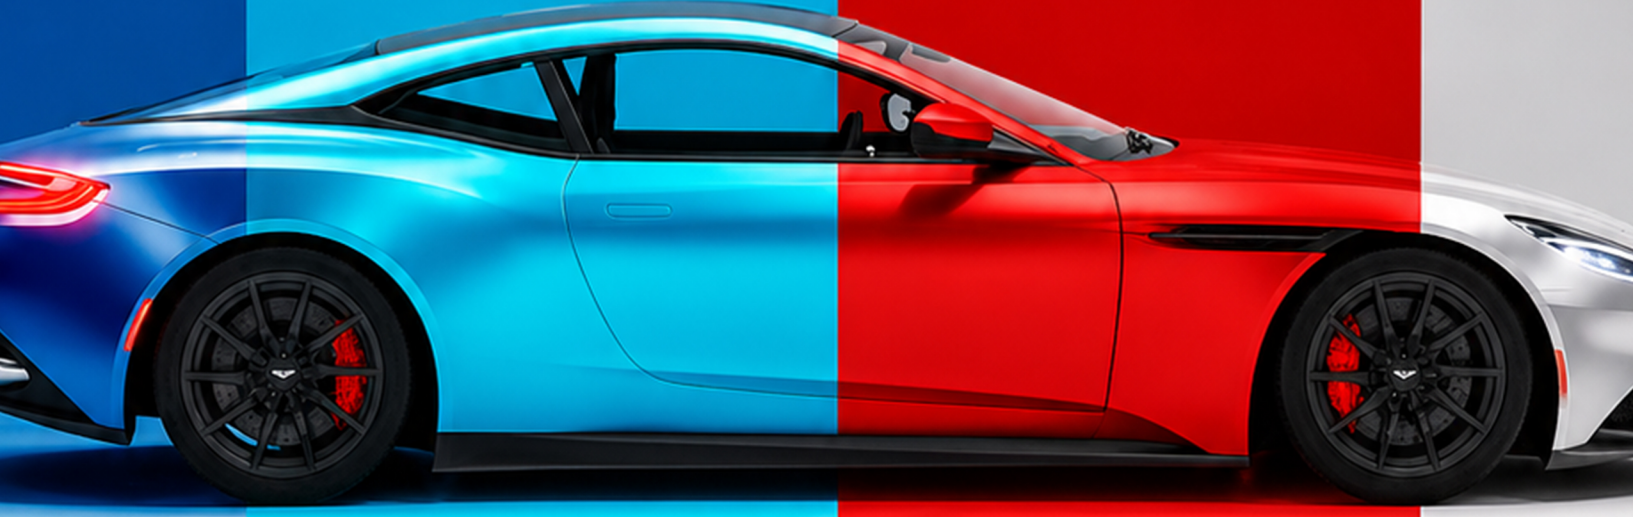

SUSTAINABILITY

Environmentally responsible production with a focus on health, safety, and a sustainable future.

OUR MISSION

To deliver innovative, reliable, and sustainable coating solutions that add value to our customers' success and contribute to a better world.

PRODUCT RANGE

Automotive Refinish:

High-performance auto refinish systems delivering perfect color matching, superior surface coverage, and a long-lasting premium finish for all vehicle types.

Industrial Coatings :

Advanced protective industrial paint solutions engineered for outstanding durability, high resistance, and flawless aesthetic appeal on heavy-duty surfaces.

Mixing Systems (Ocean Mix–Maestro Mix):

Innovative and high-precision color mixing technologies allowing custom color matching in any desired shade and volume with ultimate accuracy.

Auxiliary Products:

Comprehensive range of essential surface preparation and finishing solutions, including high-grade thinners, hardeners, primers, and clearcoats for guaranteed system performance.

Auto Cosmetics:

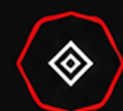

Specially formulated vehicle maintenance and care products designed to preserve, restore, and enhance the ultimate shine and bodywork protection.

OCEAN

OCEAN MIX

PROFESSIONAL AUTOMOTIVE
REFINISH MIXING SYSTEM

One System. Thousands of Colors.
Precision in Every Mix.

PREMIUM RAW MATERIALS

Carefully selected resins
and high-quality pigments.

CONSISTENT QUALITY

Reliable color and finish quality
from mix to mix.

ACCURATE COLOR MATCHING

Advanced technology for precise
and repeatable results.

— Solvent-based Basecoat + 2K Acrylic color mixing for automotive refinish, commercial vehicles
and painted metal surfaces.

////// TWO TECHNOLOGIES. ONE COMPLETE SYSTEM.

OCEAN MIX BASECOAT

Solvent-Based Basecoat Mixing System

73 colorants: opaque, metallic, pearl,
Xirallic effect colorants and flop controller.
Designed for solid and special-effect OEM
colors with accurate visual appearance and
metallic orientation.

**BASECOAT 1 : 1
UNIVERSAL THINNER**

Simple preparation.
Consistent application.

OCEAN MIX 2K ACRYLIC

High-Performance Direct Gloss Color System

25 solid colorants for passenger vehicles,
buses, trucks, commercial vehicles,
agricultural machinery, and painted metal
surfaces. Excellent gloss, durability, gloss
retention and chemical resistance.

**2 : 1 HARDENER
+ 10% THINNER**

Efficient preparation.
Professional results.

DIGITAL COLOR MATCHING

From color identification to precise mixing

- > X-Rite spectrophotometer
- > OCEAN MIX software
- > Computer-connected
electronic scale

SCAN. SEARCH. MIX. APPLY.

1

IDENTIFY

Measure or search
color data

2

FIND

Retrieve the best
formula

3

MIX

Weigh components
accurately

4

APPLY

Repeatable
workflow

SYSTEM AT A GLANCE

EXTENSIVE COLOR COVERAGE

Thousands of available formulas for automotive OEM colors,
commercial vehicles, agricultural machinery and RAL references.

OEM

COMMERCIAL

AGRICULTURAL

RAL

ACCURATE COLOR MATCHING

X-Rite spectrophotometer-assisted
color identification and precise
formulation.

ADVANCED EFFECTS

Metallic, pearl and Xirallic
colorants for modern
finishes.

PRECISE DIGITAL MIXING

Formula-guided weighing for
accurate, repeatable
preparation.

EFFICIENT WORKFLOW

Faster formula retrieval, less
correction and less waste.

PAINTS

BASECOAT PAINT

Premium solvent-based basecoat with high hiding power and a wide range of solid, metallic and effect colours. Ready-mixed colours available.

Mixing: 1:1 with Universal Thinner.
Must be overcoated with clearcoat.

2K ACRYLIC PAINT

Premium ready-mix 2K acrylic topcoat with excellent gloss, coverage and durability.

Available in a wide range of ready-made colors with a 2:1 hardener ratio + 10% thinner.

CLEAR COATS

2K ACRYLIC EXPRESS CLEAR COAT

Fast-curing 2K clearcoat for rapid repairs and short cycle times, combining good flow, gloss and easy polishing for efficient bodyshop work.

2K ACRYLIC JET CLEAR COAT

Very fast 2K clearcoat for quick turnaround and touch-up repairs. Offers good gloss, UV resistance and early polishing, even in cooler conditions.

CLEAR COATS

2K ACRYLIC PROFESSIONAL CLEAR COAT

Premium VHS 2K clearcoat designed for high film build, deep gloss, strong flow and durable protection in professional refinishing.

2K ACRYLIC PLATINUM CLEAR COAT

Premium high-solids 2K clearcoat with excellent flow, high coating thickness, strong gloss, UV resistance and chemical and physical durability.

2K ACRYLIC CHROME CLEAR COAT

Premium MS 2K clearcoat with very good flow, bright gloss, high UV resistance and dependable chemical and physical protection.

PRIMERS

2K ACRYLIC HS 4+1 PRIMER

Premium HS 2K acrylic filler primer with high filling power, strong resistance, high flow, wet-on-wet capability and easy sanding.

1K BUMPER FILLER PRIMER (PLASTIC SURFACE)

Quick-drying 1K filler primer for paintable plastic parts, combining high filling power, flexibility, strong adhesion and easy sanding.

1K PLASTIC PRIMER

Quick-drying 1K primer for plastic surfaces with excellent adhesion.
Provides a smooth and flexible base for professional refinishing.

BEDLINER

Heavy-duty textured protective coating for truck beds and high-wear surfaces, designed to resist impact, abrasion, moisture and everyday mechanical damage

PUTTIES

POLYESTER PUTTY

Premium 2K polyester filler for damage, delivering strong filling and a smooth pore-free finish. deep scratches and power, easy sanding

POLYESTER PUTTY ULTRA SOFT

Ultra-soft premium polyester filler for deeper defects, combining exceptional filling power with easy sanding and a smooth pore-free surface.

COMPETENT POLYESTER FILLER

Premium-grade polyester putty offering exceptional filling power, smooth application and easy sanding. Provides a fine, uniform and pore-free surface for high-quality professional repairs.

LIGHT WEIGHT FIBERGLASS PUTTY

Lightweight 2K fiberglass polyester putty with excellent adhesion, high elasticity and easy sanding. Ideal for bridging cracks, filling gaps and repairing damaged areas while providing a smooth and highly water-resistant surface.

AUXILIARY

UNIVERSAL THINNER

Premium thinner for OCEAN refinish systems. Available in slow, medium and fast versions and designed to preserve coating performance.

FADE-OUT THINNER

Special fade-out thinner for spot repairs, designed to blend the transition between old and newly painted topcoat or clearcoat surfaces.

BLENDING AGENT

Blending agent for local repairs, helping create smoother colour transitions and more uniform fade-out areas.

2K ACRYLIC HARDENER

Premium isocyanate hardener for OCEAN 2K acrylic paint and clearcoat systems, supporting consistent curing, gloss and UV resistance.

PAINTS

2K ACRYLIC PAINT

Premium two-component acrylic topcoat with excellent gloss, flexibility, good flow, high UV resistance and strong chemical and physical durability.

Ready-mixed colours. Mixing:
2:1 hardener +10% thinner.

NITROCELLULOSE AUTO PAINT

Quick-drying 1K nitrocellulose topcoat with high hiding power, good flow and long-lasting gloss for recoating and touch-up repairs.

SYNTHETIC AUTO PAINT

Alkyd-based topcoat with high hiding power, strong gloss, good flexibility and chemical and physical resistance for automotive refinishing.

CLEAR COATS

2K ACRYLIC HS CLEAR COAT (BRILLANT)

Premium HS 2K clearcoat with excellent gloss, very good flow, high film build, UV resistance and durable chemical and physical protection.

VR 2K ACRYLIC CLEAR COAT

Balanced mid-range 2K clearcoat with very good flow, high gloss, UV resistance and reliable chemical and physical durability.

VR 2K ACRYLIC MATT CLEAR COAT

2K matt clearcoat with smooth flow, a uniform matt effect and dependable chemical and physical resistance.

PRIMERS

VR 2K ACRYLIC 4+1 FILLER PRIMER

Quick-drying 2K filler primer with good build, smooth flow, easy sanding and wet-on-wet application capability.

VR 2K ACRYLIC 5+1 FILLER PRIMER

2K filler primer for reliable filling, smooth application and easy sanding in everyday bodyshop repairs.

NITROCELLULOSE PRIMER

Quick-drying 1K nitrocellulose primer for recoating and touch-up work, with easy application and suitability for wet or dry sanding.

1K PRIMING FILLER

Quick-drying 1K primer with high filling power, strong adhesion and corrosion resistance. Suitable for wet or dry sanding.

1K GALVANISED STEEL PRIMER

1K anti-corrosive primer with strong adhesion on steel, aluminium and galvanised steel. Can also be used as an intermediate primer.

PLASTIC SURFACE PRIMER (BUMPER PRIMER)

Adhesion-promoting primer for paintable automotive plastics and bumpers, designed to improve coating adhesion on properly prepared surfaces. Available in transparent, silver, and grey colors.

PAINTS

POLYESTER PUTTY

Premium 2K polyester body filler with excellent filling power, easy sanding and a smooth pore-free finish for small and large repairs.

POLYESTER PUTTY ULTRA SOFT

Ultra-soft 2K polyester filler for deep scratches and defects, combining high filling power with easy sanding and a smooth pore-free surface.

FIBERGLASS PUTTY

Fiberglass-reinforced polyester putty for deep scratches and defects, offering strong filling performance, good adhesion and easy sanding.

1K FINE PUTTY (RAPID)

Quick-drying 1K finishing putty for minor defects and uneven areas, designed for final surface correction on primed or painted surfaces.

POLYESTER PUTTY GALVANISED

2K polyester filler for steel, aluminium and galvanised surfaces, with high filling power, strong adhesion and easy sanding.

PLASTIC PUTTY

Flexible 2K polyester putty for paintable plastic parts, designed to repair scratches and defects with good filling, chemical resistance and easy sanding.

AUXILIARY

UNIVERSAL THINNER

Acrylic thinner for viscosity adjustment and smooth application. Available in slow, medium and fast versions and formulated to preserve coating properties.

ST-600 SURFACE CLEANING THINNER

Cleaning thinner for metal, primer, putty and old paint. Removes oil, dirt, silicone and dust without harming the coating.

SPEEDY FLASH

Drying accelerator and reducer for acrylic systems, especially useful in cold conditions and local repairs. Speeds drying without reducing gloss.

2K ACRYLIC HARDENER

Premium isocyanate hardener for 2K acrylic paints and clearcoats. Available in slow, medium and fast versions for different conditions. Supports gloss development, curing and UV resistance.

VR 2K ACRYLIC HARDENER

Matched mid-range isocyanate hardener for VR acrylic systems, available in slow, medium and fast versions for consistent curing.

VR UNDER BODY COAT

Premium protective coating for underbodies and wheel arches, helping resist stone chips, moisture and road abrasion with a textured finish.

AUXILIARY

PAINT REMOVER

Powerful stripping product for removing old paint, primer and putty from suitable steel and fiberglass surfaces before refinishing.

EXTRA ACCELERATOR

Concentrated accelerator for 2K acrylic topcoats, developed to reduce drying time at low temperatures and improve repair cycle time.

ANTI SILICON ADDITIVE

Special additive for preventing silicone-related craters and fisheyes in 2K acrylic paints and clearcoats while improving flowability.

AUTO COSMETICS

MAESTRO CAR WAX (SILICONE)

MAESTRO TEFLON CAR WAX

MAESTRO PAINT PROTECTION

FINE POLISH PASTA

2K ACRYLIC CLEAR COAT

Premium thinner for OCEAN refinish systems. Available in slow, medium and fast versions and designed to preserve coating performance.

2K ACRYLIC HARDENER

Special fade-out thinner for spot repairs, designed to blend the transition between old and newly painted topcoat or clearcoat surfaces.

2K ACRYLIC 5+1 PRIMER

Blending agent for local repairs, helping create smoother colour transitions and more uniform fade-out areas.

2K ACRYLIC 4+1 PRIMER

Premium isocyanate hardener for OCEAN 2K acrylic paint and clearcoat systems, supporting consistent curing, gloss and UV resistance.

MAESTRO MIX

Industrial Mixing System

Color, finish and gloss – mixed on demand.

Developed for small-to-medium quantities of coatings across a wide range of industrial applications, Maestro Mix enables operators to produce the required coating in the exact quantity needed within minutes — significantly reducing lead times compared with conventional ready-mixed products.

Maestro Mix offers flexible coating solutions for manufacturers operating in sectors such as bus and coach manufacturing, agricultural machinery, construction equipment, steel structures, and other heavy-duty industrial applications.

The system supports a comprehensive range of binder technologies, including high-performance topcoat, anti-corrosion primer, floor coating, epoxy, acrylic, synthetic, and cellulosic binder systems.

SIRCHA /'sir.tʃa/

*An ancient Turkic word meaning “glass” —
carried through centuries of language and craft.*

Today, we bring it back to life.

SIRCHA — a new name in the world of glass paint.
Developed in partnership with Sintas & Glass Factor,
our organic glass paint series is designed to serve
glass manufacturers, decorators, and brands across
Turkey, Turkic Republics, and the MENA region.

WHAT SIRCHA BRINGS TO THE TABLE

A Complete Color Range

Solid colors to gold, silver,
bronze & pearl effect
pigments — a palette for
every application.

Production-Optimized Formulations

Paint recipes engineered for
speed, consistency, and efficiency
on the production line.

Customer-First Approach

Dedicated technical support
and solution partnership from
first contact through after-sales.

Whether you're exploring glass decoration applications
or product development collaborations — feel free to reach out directly.
